

JUNGLE & ADVENTURE-ONE DAY-JAP

"A full day adventure program on Phuket Island"

Nature Canoe Paddle along a river in the mangroves and out to sea, passing local fish farms. Kingfishers and Heron are sometimes seen. Safe and easy to use, our canoes are suitable for all abilities.

Jungle Trek Trek through Tropical Rainforest, a primeval world. See dense vegetation of ferns, creepers and climbers, bamboo's and lianas. The jungle environment is the oldest on earth. The trek lasts 2 hours, passing jungle streams and ending at a waterfall, in a jungle setting. Get back to nature!

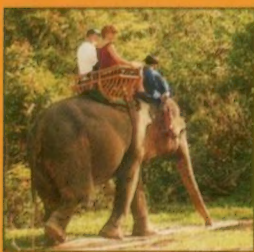

Gibbon Project

Visit the Gibbon Rehabilitation Project, which looks after once captive Gibbons. The projects aim is to one day release them back into their natural habitat, the Tropical Rainforest.

Jeep Safari Travel by 4WD up Chalong highlands, see views of the island. Stop at a local house and watch a demonstration of how to make "jungle curry". Also, find out how they tap rubber trees to produce natural latex.

Elephant Trek Trek for about 30 minutes on these majestic creatures. A memorable experience brought to you by the **original elephant trekking company**. Learn about elephants and our conservation project. Learn how monkeys are trained to pick coconuts and meet our water buffalo face-to-face.

Lunch is included, a delicious selection of Thai dishes.

A full day tour, including transfers. Daily departures. This is an active tour suitable for any normally fit and healthy person. Please wear non-slip shoes.

Thai nature-you can help to conserve it

Reduce, Re-use, Recycle
Save our Natural Resources

Thai Elephant conservation
project-mobile clinic

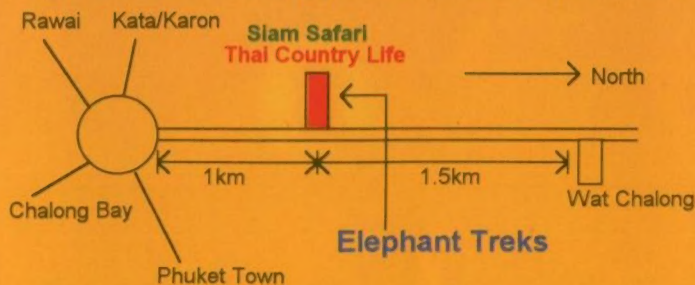

Siam Safari pioneered the first eco-nature tours on Phuket Island in 1989 & the first elephant treks & 3 in 1 half day adventure tour at the end of 1994. In 1996 & 1997 Siam Safari won awards for its ecotours. Siam Safari has helped to raise funds for a "mobile elephant clinic" project to help Thai elephant conservation. We re-use, re-cycle and reduce to try & help conserve the natural environment for the future.
